## Straight talk on Cream Separators by V. H. WELCH Musselfork, Mo.

USERS of De Laval Cream Separators have carried away every first prize awarded at conventions of the National Creamery Buttermakers' Association since their first meeting in 1892. The record is unbroken!

The reason is that De Laval bowl design, together with low speed, enables the delivery of butter-fat globules unbroken and in their natural condition—thus insuring better butter.

Because of its close skimming the De Laval produces more cream, which means more butter.

Thus the user of a De Laval Separator gets both more and better butter.

## Well "Armed"!

When company comes there is no time to waste—no chances to be taken—so mother sees that there is always a can of

## CALUMET BAKING POWDER

on hand. Cakes, pies, doughnuts, muffins and all good things to eat must be dressed up in their best taste and looks.

Then, too, her reputation as a cook must be upheld—and she "stakes" it on Calumet every time. She knows it will not disappoint her. Order a can and have the "company" kind of bakings every day.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

You save when you buy it. You save when you use it.
